

Move-able wrist and ankle joints for crochet Bleurette baw 12-28-2012

You need the crochet Bleurette pattern, find it here:

<https://sites.google.com/site/designbybethanntwo/home/links/CrochetBleurette.pdf?attredirects=0&d=1>

these are modifications to the lower arm and lower leg to create a move-able wrist and ankle joint.

For the wrist:

Start by making a separate wrist/hand:

1: Ch2, six sc in second ch from hook. Work in rounds; do not join rounds.

2-3: Sc in each sc around. Stuff the wrist gently, then flatten round three and sc it closed with three sc. Do not fasten off yarn.

Hand:

Ch3, sl st in the last sc made, (ch3, sl st in the second and third ch from the hook and in the next sc), (Ch3, sl st in the second and third ch from the hook and in the same sc), (ch3, sl st in the second and third ch from the hook and in the next sc), ch3, sl st in the same sc. Fasten off. Fingers made.

For the lower arm:

Work the same as for the original crochet Bleurette lower arm through round 8.

9: Sl st in the BLO of each sc around. This forms an inner ridge for the wrist socket.

10: In the front free loop from round 9 sc in each st around.

11: Sc in each st around. Finish off.

Joint the wrist the same as jointing the lower arm to the upper arm.

Follow the original instructions for the upper arm.

For the ankle:

Start by making a separate foot/ankle:

Work same as the original crochet Bleuette lower leg through round 5. Stuff the foot.

6: (Sc next two sc together) four times. Add a little more stuffing if necessary, then close the foot opening with a sl st.

For the lower leg: begins at the ankle end of the lower leg.

1: Ch11, sc in the second ch from the hook and each ch across. 10 sc

- 2: Beginning in the first sc, sl st in the BLO in each sc around. This forms an inner ridge for the ankle socket.
10 sl st
- 3: In the front free loops of round 2, sc in each st around. 10 sc
- 4-5: 10 sc
- 6: Two sc in the next st, sc in the remaining sts around. 11 sc
- 7-8: 11 sc
- 9: Sc in the next st, two sc in the next two sts, sc in the remaining sts around. 13 sc
- 10: 13 sc
- 11: Sc in the next st, (sc next two sc tog) twice, sc in the remaining sts around. 11 sc
- 12: 11 sc. Stuff the lower leg, making sure stuffing does not come out of the small hole at the bottom of the leg.
- 13: (Sc in the next st, sc next two sts tog) three times, sc in the last two sts. 8sc. Add a bit more stuffing to the top of the lower leg.
- 14: (Sc next two sc tog) three times, sl st in the next st. Add a little more stuffing if necessary, then close the top of the lower leg with a sl st.

Joint the ankle the same as jointing the wrist to the lower arm (which is the same as jointing the lower arm to the upper arm :-)

Follow the original instructions for the torso and upper legs.
