Weave in the ends. With the long beginning tail make a ch4 buttonhole loop; sew a tiny button or pearl opposite and you are done!
**Knit sweater and cap:**

Materials:
- Fingering weight yarn
- Size 0 (2mm) knitting needles

Gauge: 10 sts = 1 inch

PM = place marker  
MM = move marker  
Kinc = Knit in the front and the back of the stitch  
Kdec = Knit two sts together

Note: Sweater begins at the neck edge and is worked seamlessly. The sleeve stitches are placed on waste yarn and worked after the body of the sweater is finished. If you prefer a short sleeve sweater (faster!), then bind off the sleeves instead of placing them on waste yarn.

**Knit Sweater:** CO 16 sts  
1: K16  
2: K2, P12, K2  
3: K16  
4: K2, PM, P4, PM, P4, PM, P4, PM, K2. 16 sts

Raglan increases will be worked on odd numbered rows as follows: Knit in each stitch up to one st before the marker then (Kinc, MM, Kinc) at each marker. This will increase each raglan increase row by eight stitches.

Even numbered rows are worked as follows: K2, P across to the last two sts, K2.

7: Raglan increase to 32 sts
8: K2, P across to the last two sts, K2. 32 sts
9: Raglan increase to 40 sts
10: K2, P across to the last two sts, K2. 40 sts
11: Raglan increase to 48 sts
12: K2, P across to the last two sts, K2. 48 sts
13: Raglan increase to 56sts
14: K2, P across to the last two sts, K2. 56sts

Divide the stitches for the sleeve on row 15 as follows:

15: K7 up to the first marker; place the next 14 sts (between the markers) on a piece of waste yarn, K14 sts to the next marker; place the next 14sts (between the markers) on a piece of waste yarn, K7. **Note: the sweater is equally cute if you bind off the 14 sts for each sleeve, instead of placing them on waste yarn.**

16: K2, P across to the last two sts, K2. 28 sts
17: K28
18: K2, P across to the last two sts, K2. 28 sts
19-20: K1, P1 across; at the end of row 20 bind off.

The above image is trying to show the needle placement for the sleeves. In the leftmost, you can see six stitched on the first needle, three on either side of the gap under the arm. The middle image shows all three needles in place, with six, four and four stitches respectively. The rightmost image has my fourth needle pointing at the stitch where the knitting will begin, in the first st to the left of the needle with six stitches on it.

Sleeves: Place the 14 sts on the waste yarn on three double point needles as follows: place six stitches on one needle, taking three stitches from one side under the arm, and three from the other side under the arm, and four stitches on the remaining two needles. So, you will have six stitches equally spaced

under the arm, and four on each needle going over the top of the arm opening.
1: Beginning with the four st needle to the left of the six stitch needle, K4 on each of the next two needles. On the needle with six stitches, K2, (K2tog) twice, K2. You now have four stitches on each needle
2: K12 around
3-4: K1, P1 around, bind off at the end of round 4.

Use the tail from the beginning of the sleeve to close any small openings where the sleeve and the body of the sweater join.

Weave in the ends and you're done!

**Knit cap:** CO 54 sts and divide evenly over three dpns; 18sts/needle
1-4: K1, P1 around for four rows of ribbing
5-21: K54
22: K2tog around, 27 sts
23: K27, cut the yarn leaving a long tail to thread through the stitches on the needles, pull tight and fasten off.
